---

Kim:

I would offer the following comment on the draft policy intent:

- References to national standards such as CSA without equivalent international standards (e.g. ISO, EN), flag state regulations, and/or Classification Rules have the potential to delay the certification process to raise regulatory queries. This is especially the case with mobile offshore units which may spend limited time periods in Canadian offshore waters, and for which the subject typical RQs are often repeated.

Please do not hesitate to contact me if you have any questions.

Regards,

Joe

**Subject:** RE: Atlantic OHS Initiative - Phase 3 Stakeholder Engagement

Good morning,

In follow-up to my email of last week, please find attached the draft policy intention document for Phase 3 of the OHS Initiative.

Please RSVP by November 10, 2017, if you wish to attend one of the two sessions being held in Dartmouth and St. John's.

Best regards,

**Kim Phillips**

**Subject:** Atlantic OHS Initiative - Phase 3 Stakeholder Engagement

Good morning,

On behalf of the Governments of Canada, Nova Scotia and Newfoundland and Labrador, we would like to invite you to the fourth multi-stakeholder engagement session (Phase 3) with respect to the development of new Occupational Health and Safety regulations for the Canada-Nova Scotia and the Canada-Newfoundland and Labrador offshore areas.

Governments are working to develop Occupational Health and Safety (OHS) regulations that will replace the transitional regulations that came into force on December 31, 2014 with the introduction of Part III.1 of the Accord Acts. As part of the process, we have been holding sessions with stakeholders on draft policy intent in advance of developing the regulatory text, so that comments may be taken into account in the drafting of the new regulations.

The Phase 3 sessions will focus on the following regulatory topics:

- OHS Management System & Program
- Workplace Committees and Coordinators
- Training
- Personal Conduct
- Employee Wellness
- Fatigue Management
- Emergency Preparedness and Response
- Blasting
- Hazardous Substances
- Personal Protective Equipment
- Passengers in Transit
- Compressed Gas Storage and Handling
- Rechargeable Batteries
- First Aid
- Incident Reporting and Investigation
- Record Retention

As a follow-up to this invitation, we will send a draft policy intention document on those topics as far ahead of the engagement sessions as possible. You may provide any questions or comments you have on the policy intent document ahead of the sessions.

The sessions will take place at the following times and locations:

<b>NOVEMBER 17, 2017</b> 9:30 – 4:00 AT 103 Garland Avenue 2 <sup>nd</sup> Floor, Room 2B Dartmouth, NS	<b>NOVEMBER 20, 2017</b> 9:30 – 4:00 NT Holiday Inn St. John’s Conference Centre 180 Portugal Cove Road St. John’s, NL
---	--

Note that lunch will be provided.

**Please RSVP by November 10, 2017** to Kim Phillips, OHS Initiative Project Manager ([kim.phillips@canada.ca](mailto:kim.phillips@canada.ca)), indicating the session (Dartmouth or St. John’s) you wish to attend and the number of people attending from your organization.

Stakeholder engagement/consultation sessions will take place periodically on various elements of the OHS Regulations. We will keep you informed as future sessions are scheduled.

We look forward to seeing you at the upcoming sessions.

Sincerely,

**Kim Phillips**
